

RH Logic 400 24 hr

www.rhchairs.co.uk

One of our most popular chair series. RH Logic 400 has a high back, while RH Logic has 300 a lower back. Both are based on 2PP™, our philosophy of active sitting, enabling you to do more and perform better. The RH Logic 400/300 suits different people and work situations with a wide range of different fabrics and options, such as extra large seat and control room-adapted design. Selected models are also available in ESD-approved design.

A chair that is used all day long naturally needs to be extra comfortable and durable. RH Logic 400 24 hour has an extra wool layer in the seat and back to enhance ventilation and comfort. Current upholstery options are either leather or 24/7. Otherwise the control room chair has the same features as the standard chair. This means that the fabric and the pads can be changed easily. RH Logic 400 is tested and approved to EU standards (EN 1335, compliant with ISO 7173 for control room chairs). The guarantee period has been increased to two years. RH Logic 400 24 hr comes standard with lumbar pump, castors for soft floors and base in graphite aluminium with matching infills, and can also be equipped with a range of options such as neckrest and armrests. RH Logic 400 24 hr is also available with XL seat.
